

TOWN OF TAMWORTH

MINUTES OF SELECTMEN'S MEETING

May 23, 2011

Present: William Farnum, Robert Abraham, John Roberts,
Richard Roberts, Paul King, and Cassandra Pearce.

Selectman Farnum called the meeting to order at 7:30 a.m.

***Intersection of
MAPLE ROAD &
TURKEY STREET:***

The Board met with the Road Agent and Paul King to review and discuss the Town's right of ways on the two roads. Mr. King had been out and marked the road with white paint to show the widths as allowed in the Subdivision regulations for both the residential and commercial requirements. The Board, the Road Agent & Mr. King all had the opinion that due to the number of tractor Trailer trucks the commercial (50') radius should be used.

The Board continued by discussing what would be done on the outsides of both sides of the road. The Road Agent stated he had spoken with the homeowner on that corner and he was very cooperative and in favor of relocating the intersection. The Board discussed the different alternatives to help alert the traffic of the new pattern before they get to the intersection. An earth berm was discussed, then it was decided that they will try deflectors first with a grassy area.

The South side of the intersection will be grassed in and reflectors will be added there as well. The stop sign will be moved closer to the new intersection.

ADJOURNMENT:

Motion made by Selectman Farnum to adjourn at 8:15 a.m. Motion was seconded by Selectman Abraham and passed unanimously.

Respectfully Submitted,
Cassandra M Pearce
Town Administrator

William Farnum

Robert Abraham

John Roberts
