

MINUTES

Tamworth Municipal Building Committee

Date | time 06/12/2017 7:00PM | *Meeting called to order by* R. Colcord

In Attendance

Da. Bowles, J. Hidden, J. Waldron, R. Remick, N. Cloutier, R. Boyden and R. Colcord.

Approval of Minutes

The minutes were read and approved as amended from the meeting of 05/08/2017.

Board

Historic call volume and locations were discussed as obtained from the Fire Department and Police Department. Location of the new building was discussed based on call statistics and the desire to maintain the new building within one mile of the existing Central Fire Station. This is very important to maintain a distance of no greater than 5 miles for any residence to a class "A" pumper for fire protection so as to not adversely affect insurance costs for homeowners. The Board discussed many possible plots of lands that are within one mile from Central Station. Emphasis was put on our desire to have room for future growth, land the Town already owns and land with resources on it, i.e. gravel. R. Remick with N. Cloutier will check on the amount of usable land at the site of the leach fields on Chocorua Road and report back during our July meeting. R. Colcord will check into the availability of land which abuts the current Central Fire Station and report back in July. The meeting was adjourned at 8:00PM.

Next Meeting

July 10th, Central Fire Station at 7:00PM.
