*Draft minutes to be reviewed and approved at a subsequent meeting*

**Review Minutes** – Minutes of 01/02/2013 accepted.

**Old Business** – Dave B. reported that he reviewed the DOT betterment plans for Tamworth and identified those projects where ROWs were specified. He handed out copies of his notes. Ron reported that he worked up a map in AutoCAD using the information he has on the location of range and lot lines. It can be used with various base layers. It will be useful for fitting road layouts. Discussion followed on use of aerial photos as a base layer. The general consensus was that it is a big help for worksheets but the aerials shouldn't be used for public display because the lack of accuracy in the layouts might result in discrepancies that would alarm some property owners.
